

UNCLASSIFIED

LG ANDROID 5.x ISCG CONFIGURATION TABLE

Version 1, Release 2

25 September 2015

Developed by LG and DISA for the DoD

UNCLASSIFIED

Note: The logic of some of the configuration settings in the following table may differ from one MDM product to another. For example, the policy rule "Disable GooglePlayStore" may appear as "Allow GooglePlayStore" in some MDM consoles. In this case, the rule should be set to "Disable" instead of "Enable" as indicated below.

Note: The title of each policy group and policy rule may differ from one MDM product to another.

Table 1: Configuration Policy Rules

Policy Group	Policy Rule	Options	Required	Optional	Settings	Related Requirement Number	Comments
Password Restriction	Password length	0-	X		6 or more characters	LGA5-10-000100	
Password Restriction	Maximum time to lock	0-	X		15 minutes or less	LGA5-10-000200	
Password Restriction	Maximum failed password attempts	0-	X		10 or less	LGA5-10-000300	
Application Restriction	Allow GooglePlayStore	Enable/Disable	X		Disable	LGA5-10-000401	
Android Restriction	Allow Unknown sources	Enable/Disable	X		Disable	LGA5-10-000402
