MEMORANDUM FOR DISTRIBUTION

SUBJECT: Announcement of the DISA Field Security Operations (FSO) Draft Mobile
Application (MAPP) Security Requirements Guide (SRG) Version 2

DISA FSO has developed the draft MAPP SRG Version 2. The draft SRG is available on the NIPRNet at http://iase.disa.mil/stigs/net_perimeter/wireless/smartphone.html for review and comment.

This draft SRG addresses multiple aspects of a Mobile Application's security that includes the storing, transmission and processing of data, cryptography, and time sources. It is designed to be used to test and evaluate apps as opposed to creating STIGs for apps. This SRG has been updated to reflect new requirements in NIST SP 800-53 Revision 4.

Please provide comments, recommended changes, and/or additions to the draft SRG by 13 August 2014 on the Comment Matrix spreadsheet. The spreadsheet is available at http://iase.disa.mil/stigs/net_perimeter/wireless/smartphone.html. Comments should be sent via NIPRNet email to: disa.letterkenny.FSO.mbx.stig-info@mail.mil. Include the title and version of the SRG in the subject line of your email.

ROGER S. GREENWELL
Director, Field Security
Operations
