IASE Posting Request Form

5 Sep 2014	10 Sep 2014
Request date	**Requested completion date (if urgent)**

Deletion(s)

List of page(s)/URL(s) and/or files/filenames to be removed:

Posting(s)/Update(s)

Unclassified documents to be posted/updated on the IASE Public site:

Page(s)/URL(s) to be posted:

http://iase.disa.mil/stigs/app-security/database/Pages/oracle.aspx

List of files/filenames to be posted:

U_Oracle_Database_11.2g_V1R1_STIG.zip
U_Oracle_DB_11.2g_Release_Memo.pdf

Documents to be posted/updated on the IASE PKI-restricted site:

Page(s)/URL(s) to be posted:

List of files/filenames to be posted:

Additional instructions:

Please add another header under the Oracle 11 Database Security that says "Oracle 11.2 Database Security". Please post the two documents stated above under this new header.

Classification Markings:

☑ I confirm that all documents contain proper classification and handling caveats markings.

SIPR/REL posting (please check one of the boxes below):

☑ I approve all content posted on the Public and PKI-restricted site to be automatically posted on the REL, which is also accessible to all users with SIPR access. Please reference the IASE Web Site Customer Support document for more information about the REL.

☐ I would prefer to have the PKI-restricted content posted only on SIPR, but not the REL: I have reviewed and understand the REL information and guidance regarding sharing IA information with the REL partners.

☐ I would prefer to have some of the PKI-restricted content posted only on SIPR, and the remaining on the REL (provide specific guidance in "Additional instructions" section): I have reviewed and understand the REL information and guidance regarding sharing IA information with the REL partners.

PAO and OPSEC Approval:

IA-Web will submit all DISA documents to DISA PAO and OPSEC for review and approval, unless prior approval document from PAO and OPSEC are provided along with posting request. For non-DISA documents, please select the appropriate box(es) below.

[✓] The submitted non-DISA documents have been approved for release to the general public by the document author's organizational public affairs and security office(s). (These documents will be posted on the IASE Public site)

[ ] The submitted non-DISA documents have been approved for release to the DoD/Federal community by the document author's organizational public affairs and security office(s). (These documents will be posted on the IASE PKI-restricted site)

Terry Sherald
